DISCOVER AN OVERLOOKED AREA

Optional activities like kayaking and adventure parks support the local community directly.

CYCLING THROUGH THE GREEN OASIS OF BANG KRACHAO

PICK-UP AT 8:00AM
DURATION 6 HOURS

PRIVATE ADVENTURE

Get ready for an exciting day of urban exploration, beginning with an early morning pick-up from your hotel. After a quick transfer to the meeting point, you'll undergo a short bike fitting session to prepare for the day's adventure. With your bike ready, the adventure kicks off with a unique one-hour Tuk Tuk ride to the lush and peaceful peninsula of Bang Krachao.

Known as the "Green Lung of Bangkok," Bang Krachao covers nearly 5,000 acres of farmlands, forests, and intricate canal networks. This urban oasis absorbs over 6,000 tons of carbon dioxide each year, providing a vital green space amidst Bangkok's bustling cityscape. As you arrive, the fresh air and peaceful surroundings offer an instant escape from the noise and pollution of the city, setting the tone for the adventure ahead.

Before the ride begins, enjoy a quick coffee while the team preps your bikes. The first stop on your cycling journey is Wat Chak Daeng, a temple gaining recognition for its innovative approach to sustainability. Led by Assistant Abbot Pra Maha Pranom, the temple educates locals and visitors on recycling, and is famous for creating "nano-robies" made from recycled plastics, cotton, and zinc-oxide nanoparticles. This stop is a great opportunity to learn about the temple's environmental efforts and how the local community is benefiting from its forward-thinking practices.

As the tour continues, you'll cycle through rich mangroves and visit another ancient temple, known for its fascinating history and unique architecture. Along the elevated walkways and winding canals, you'll encounter several vibrant communities, each specializing in local craftsmanship. Whether it's producing herbal massage balls or practicing traditional fabric dyeing with natural dyes, these communities offer a rare glimpse into the cultural heritage of Bang Krachao.

Throughout the ride, optional activities such as kayaking on the canals or visiting an adventure park for families can be arranged with your guide. These activities are paid for on-site, ensuring that the proceeds go directly to the local community.

After a morning of cycling and exploration, you'll stop for a quick lunch at a local restaurant, enjoying the flavors of the region. As the adventure draws to a close, you'll return to the pick-up point and be transported back to your hotel, leaving you with unforgettable memories of this hidden green gem in the heart of Bangkok.

Whether you're a nature lover, cultural enthusiast, or just seeking an active day out, this cycling tour of Bang Krachao offers a refreshing and ethical way to experience a lesser-known side of Bangkok.
